Breaking Par Academy

The Breaking Par Academy is a golf skill development program with the focus on learning how to score on the golf course. Breaking Par clinics have a heavy emphasis on short game development including putting, chipping and partial to full swing shots. During Breaking Par play dates, each hole is played as a Par 4 and students start each hole from 25 yards away (division 1). If they shoot par or better on 9 holes, they will move back to start from 50 yards away (division 2) on the next play date. Students stay on each level until they shoot par or better for 9-holes, eventually graduating to full length tees for each hole.

Use PLAYER'S HEIGHT to determine club size

Determine PLAYER'S DRIVER SWING SPEED to choose ULTRALIGHT or TOUR SERIES.

The 2/3 Solution
To help kids develop a proper release with high handspeed, the driver should never be too long. It should fit as it does for adults. Adult drivers are 2/3 their height.

Player's Height x 2/3 (.667) = Perfect Fit Driver

Example:
51" tall x .677 = 34" driver

UL ULTRALIGHT		TOUR SERIES	
Ultralight clubs are designed with lighter clubheads and more flexible shafts for the beginning golfer with less clubhead speed.		TOUR SERIES clubs are designed for the intermediate to advanced golfer with more clubhead weight and longer, stiffer shafts.
